J. WATUMULL SADHUBELLA GIRLS COLLEGE

COLLEGE PROFILE

J. Watumull Sadhubella Girls College is the girls senior college affiliated to University of Mumbai in suburban areas. It was established in 1994 with the aim of all round development of women. Currently the college offers B.Com., M.Com., and self financing courses like BMS and BCBI.

A Spiritual Leader, Visionary Figure Acharya Swami Ganeshdasji Maharaj, Founder of Sadhubella Education Society, believed that "The Need of time is to nourish the students for all round personality development much beyond academic excellence." The weaker female section neglected by society since centuries touched the kind heart of our beloved Swami Ganeshdasji Maharaj. He started education specially for girls which flourished from bottom to top. College is the girls college in Mumbai suburban areas affiliated to University of Mumbai. This step of the Swamiji was not only appreciated but supported from International level. Due to globalisation and active participation of women in every field, our college came forward to start professional courses i.e. Bachelor of Management studies, B.Com. (Banking and Insurance). From last few years college has started M.Com. (Accountancy). The college has achieved academic excellence in a very short span of time. The students have proved themselves in academic field, sports & cultural activities. The faculty of the college strive hard for development of the students and are great support to them.

Shri. Uttamsingh Pawar Ex. MP Industrialist is the Hon. Chairman and Shri Nitin Bagwe who is

Ex. Academic Council member Dr. BAMU Aurangabad Ex. Executive Council member Maharashtra State Secondary & Higher Secondary Board Pune is the Hon. Secretary.

The college is committed to the promotion of quality education, which aims at the holistic development of each student, to achieve the vision of 'Empowerment and Enlightenment of women by envisaging their aspirations in the light of wisdom'. Our college strives to accomplish its mission, 'Empowerment of women through academic excellence', by imparting education to enhance the intellectual level of the students and develop their cognitive and soft skills to make them competent for meeting challenges of the modern world.

The college was accredited by National Assessment and Accreditation Council (NAAC) in the year 2004. The college is striving hard to achieve the excellence in providing Vocational training courses and skill development sessions.

One Day National Level Seminar – In Collaboration with Department of Commerce, University of Mumbai

Sustainable Development in India: Strategies and Emerging Trends

Sustainability can be defined as the practice of reserving resources for future generation without any harm to the nature and other components of it. Sustainable development ties together concern for the carrying capacity of natural systems with the social, political, and economic challenges faced by humanity. Sustainability science is the study of the concepts of sustainable

development and environmental science. There is an additional focus on the present generations' responsibility to regenerate, maintain and improve planetary resources for use by future generations.

Belief in economic growth has come to be seen as a solution for all India's social and political problems, including poverty, social exclusion and environmental degradation. This also explains why the economic growth rate is the only indicator of progress to which all Indian politicians – even on the political fringes – pay homage.

India's reluctance to slow down growth in order to pursue sustainability or inclusiveness is not irrational. The trauma of passage from a predominantly religious, feudal society to a more secular, egalitarian and industrial one requires the country to have an optimistic view of the future.

The belief that growing wealth and technological sophistication will guarantee power and prestige provides this dose of optimism. If India is asked to consider the cost of growth in environmental degradation and social exclusion, it is likely to respond that more growth and more technology are the solution.

However, the Indian Government's optimistic view of economic growth as a means to social inclusiveness, providing dignity and a decent quality of life for all, and ecological sustainability, is flawed.

At the same time, the Western idea of sustainable development is equally untenable. It endorses the false promise that an expanding economy can be fully compatible with environmental sustainability.

The values of social inclusiveness and ecological sustainability will be properly prioritized only when economic growth ceases to be a proxy for development or progress.

OBJECTIVES OF THE SEMINAR

- To provide a forum for interaction among corporate leaders, professionals, academicians, policy makers and experts, to deliberate on issues relating to environment, social and corporate governance.
- To facilitate sharing knowledge, experiences and best practices incorporated by companies for promoting corporate responsibility and sustainability reporting.
- To increase awareness about the importance of Strategies and emerging trends in achieving Sustainable Growth and development.
