#### INDIAN FINANCIAL SYSTEM

## Syllabus

#### **Preamble**

A Financial System plays a vital role in the economic growth of a country. It intermediates between the flow of funds belonging to those who save a part of their income and those who invest in productive assets. It facilitates the transfer and allocation of funds, efficiently and effectively. It provides opportunities for students to enhance their knowledge & employability skills. The purpose of this paper is to acquaint the students with the various components of the financial system and their workings. In the globalised context, the Indian Financial System has metamorphosed in to a substantive, competitive and cost effective system and hence, it is essential to study in depth about its structure and recent developments.
