## Q. P. Code: 26326

|      | (3 Hours)   | )             | Total Marks: 80 |
|------|---|---------------|-----------------|
| NB:  | (1) Question No.1 is compulsory.  |               |                 |
|      | (2) Attempt any 3 questions from remaining Q2 to Q6.  |               |                 |
|      | (3) Each question is of 20 marks.   |               |                 |
|      | (4) Figures to right indicates full marks.  |               |                 |
| Q.1- | a) Explain in detail about the different stages of mitosis.   |               | 10 <b>M</b>     |
|      | b)Explain the different types of intercellular signalling.  |               | 10M             |
| Q.2  | Write Short Notes for the following. (any 4)  |               | 20M             |
|      | <ul> <li>a) Endocytosis</li> <li>b) Selectins</li> <li>c) Rough Endoplasmic Reticulum</li> <li>d) Cyclins</li> <li>e) Collagen</li> </ul> |               |                 |
| Q.3  | Explain the following with a neat diagram.  |               | 20M             |
|      | a)Motor proteins b)   | ) IgSF        |                 |
|      | c)Plant cell  | ) Cell cycle  |                 |
| Q.4  | a) Discus in detail about movement of materials through Golgi complex   |               | 10M             |
|      | b) Explain the receptor dimerization of RTK.  |               | 10 <b>M</b>     |
| 0.5  | <ul><li>a) Explain any two components of extracellular matrix.</li><li>b) Explain in detail about passive transport.</li></ul>            |               | 10 <b>M</b>     |
|      |   |               | 10 <b>M</b>     |
| Q.6  | a) Explain in detail about Extrinsic pathway of programmed cell death.  |               | 10 <b>M</b>     |
|      | b) Explain the structure and function o   | of cell wall. | 10 <b>M</b>     |
