

Domestic Waste Management कचरा व्यवस्थापन is the burning issue at Vidyanagari campus.

Compliments to group of ladies for taking necessary steps to address the issue in a systematic and studied way by first sensitising it and then onwards making personal appeal to each and every one for waste management. Thus apart from awareness, there would be willingness as well resulting into active participation. I wish all the best for the very essential movement. "

Interactive session is organised at IDOL on 3rd February 2016 at 4.30 PM with Dr Nilima Kulkarni of renowned NGO Hariyali on Domestic waste management.
