As you prepare for the next stage in your life, we at The Chopras would like to help ensure that the decisions you make right now about your future education stand you in good stead to help you build a strong and secure career.

The pathway route often attracts a range of students for a multitude of reasons. Whether students are looking for progression, a route that widens access to a range of universities and courses, or even for the simple reason of gaining academic skills that would ensure success at university, pathways offer brilliant opportunities that are often overlooked by students due to a series of misconceptions and misguided advice.

To help guide you through the maze of opportunities, and to help crystalize your thoughts on your future education options, we are pleased to bring the next in our series of Webinars that will focus on securing a Fast Track Route to International Undergraduate Degrees in Elite Universities through Pathway Programmes.
