Dear Sir/Madam

Greetings from the British Council!

As you may be aware the British Council administers the IELTS (International English language Testing System) which is taken by students planning to study overseas.

IELTS is the world's most popular English test for higher education and immigration. We conduct the test in over 50 cities of India including Mumbai and Pune. Over 3 million tests were taken in the last year.

We are constantly receiving requests from students for resource materials and trainings to help them prepare for this test so that they can achieve their dream of study or work abroad. To help the test takers score better in the test we are organizing Candidate Seminars in Mumbai and Pune as per the following schedule:
